Acknowledgements / Funding

We thank the volunteers participating in this study for their support and commitment. The Malaysian Palm Oil Board funded this study. Statistical input was undertaken at the ICR Clinical Trials and Statistics Unit with funding from Cancer Research UK. We are grateful for the time and insight provided by members of the Independent Data Monitoring Committee, Dr Diana Tait, Dr John Green and Samantha Hinsley. We wish to thank Lauren King for help with analysis of the patient food diaries and Professor Greg Gorman, for analysis of samples for gamma tocotrienol levels.

This study represents independent research supported by the National Institute for Health Research (NIHR) Biomedical Research Centre at The Royal Marsden NHS Foundation Trust, the Institute of Cancer Research, London and the Biomedical Research Centre, University of Nottingham. The views expressed are those of the authors and not necessarily those of the NIHR or the Department of Health and Social Care.

Conflict of Interest

No author has any conflict of Interest to declare

Key words:

Cancer, radiotherapy, gastrointestinal, side effects, toxicity, quality of life, pentoxifylline, palm oil, gamma tocopherol
